

SUNLIGHT SAUNAS™

Dear Erin,

I am very, very pleased with the sauna, mainly because it has enabled me to achieve the goal I had in mind when I purchased it, which was: to get rid of heavy metals.

As I told you, I had high levels of mercury, lead and aluminum in my body at the time of purchase.

After only 4 months of use of the sauna, these levels went down very significantly. In mid August 2006 I received my Solo System and used it about every other day. In mid December I got new blood tests and could hardly believe it when I got the results: Here is more precisely what has happened for me (/liter = per liter of blood):

<u>Toxin</u>	<u>March 2006</u>	<u>Dec. 2006</u>
Lead	33 microgram/liter	18 microgram/liter
Mercury	6.7 microgram/liter	< 2 microgram/liter
Aluminum	16.3 microgram/liter	13.3 microgram/liter

As you can see, I have to continue in order to eliminate more lead and aluminum, but I am truly delighted with the progress made so far so quickly! This is for me a great weight off my shoulder to have been able to achieve such fantastic results in such a small amount of time thanks to your sauna. One of the great advantages of the sauna for me is that it spares the kidney in the detoxification process.

I believe and feel that my body is way healthier and now the blood tests are here to prove it.

Best regards

Pierre Chanty
